road*

The Exhibition will showcase portable icons, golden embroideries, metalworking and manuscripts.

The Bank of Cyprus Cultural Foundation was established in 1984, a decade after the Turkish invasion and the beginning of the ongoing occupation of the northern part of the island. The Foundation was born out of the Bank's desire to assist in the rescue of the island's cultural heritage, which has been pillaged or stolen by Turkish forces in the occupied areas, and to promote the Hellenic culture of Cyprus at a professional and scholarly level.
