Indians pay surgeons to turn girls into boys

[Ξένες γλώσσες / In English](#)

There are now seven million more boys than girls aged under six in the country

Indian doctors have been accused of conducting sex change operations on young girls whose parents want sons to improve the family's income prospects.

Madhya Pradesh state government is investigating claims that up to 300 girls were surgically turned into boys in one city after their parents paid about £2,000 each for the operations.
