

A undated file photo of the Niagara Falls at the US-Canadian border

(FILES) A undated file photo of the Niagara Falls at the US-Canadian border. An American man was under psychiatric observation after becoming the first adult to survive a jump over Niagara Falls without using safety equipment. Witnesses standing in the spray of Niagara Falls looked on in disbelief as they say a man go head first over the waterfall, bob up below and pull himself up on rocks wearing only the clothes on his back, news reports said Tuesday, 21 October 2003. The man, whose name was not released by police, was believed to be the first person to survive the 55-metre fall from the Canadian Horseshoe Falls without a safety device. No
